The T.A.P. Level 1 class delivers speed, precision, and enhanced problem-solving, all while minimizing your team's operational footprint in dynamic environments.

We challenge the old mindset of structure-based apprehensions. Instead, we draw suspects into a controlled environment, one we create and dominate. That's the core of Trapdoor Tactics™.

Trapdoor Tactics™ blends multiple strategies: Vehicle Containment Techniques, Open-Area apprehensions, Diversionary Tactics, and Environmental Manipulation into a powerful, mobile package for apprehending violent offenders. \$900 per student.
